2-Soit Oublier la connexion EDUROAM puis réinstaller Eduroam

Oublier la connexion : Aller dans Paramètres-> réseau-> wifi-> Gérer les réseaux connus

The screenshot shows the Windows Settings application. On the left, the 'Paramètres' sidebar is visible with 'Réseau et Internet' expanded and 'Wi-Fi' selected. The main content area is titled 'Wi-Fi' and shows the Wi-Fi toggle is turned on. Below this, the 'eduroam' network is listed as 'Connecté, sécurisé'. A red rectangle highlights the 'Gérer les réseaux connus' link. Other options like 'Afficher les réseaux disponibles', 'Propriétés du matériel', and 'Adresses matérielles aléatoires' are also visible. On the right side, there are instructions on how to connect to a wireless network and links for troubleshooting and help.

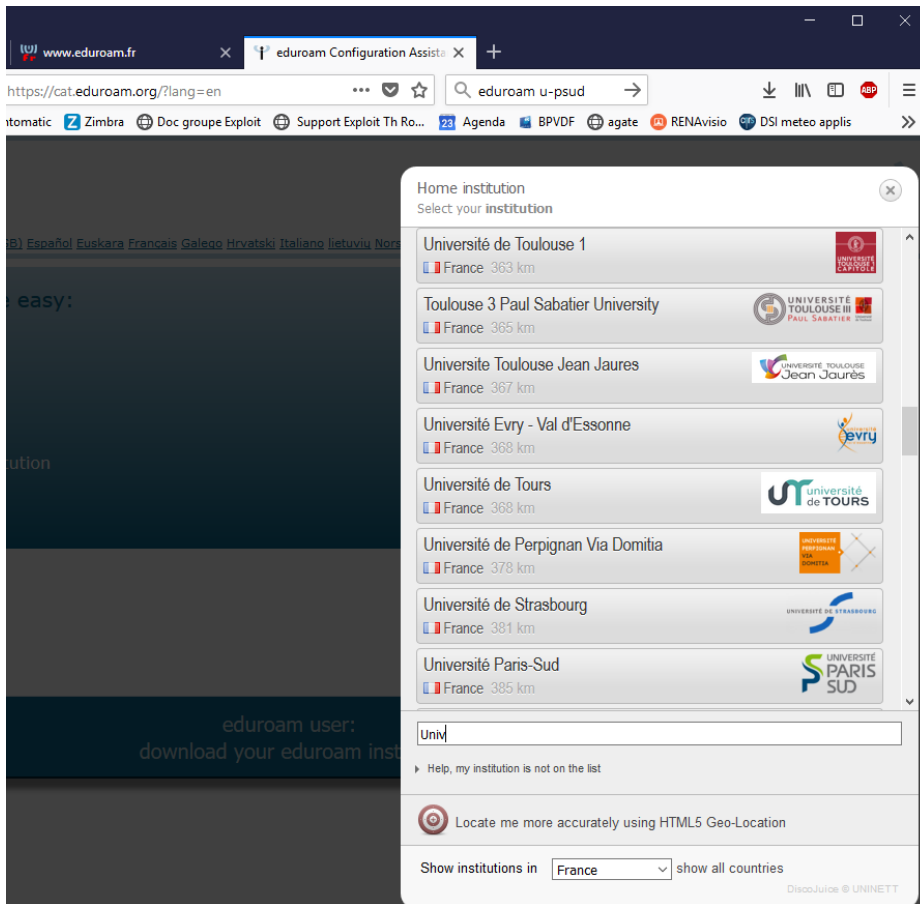

-Selectionner EDUROAM et Cliquer sur Oublier

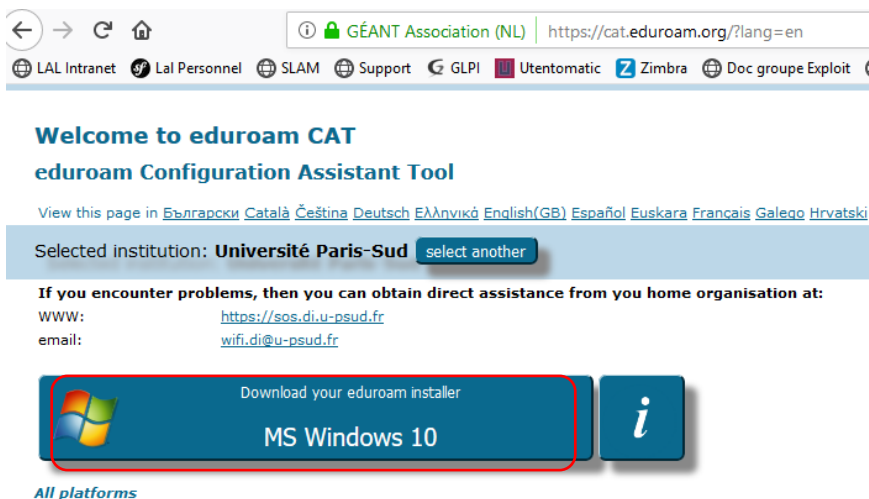

This screenshot shows the 'Gérer les réseaux connus' (Manage known networks) screen in Windows Settings. At the top, there is a back arrow and the title 'Paramètres'. Below that is the 'Wi-Fi' header. The main heading is 'Gérer les réseaux connus'. There is a '+ Ajouter un nouveau réseau' button and a search box labeled 'Rechercher dans cette liste'. Below the search box, there are sorting and filtering options: 'Trier par : Préférence' and 'Filtrer par : Toutes'. A list of known networks is shown, with 'eduroam' at the top. At the bottom of the 'eduroam' entry, there are two buttons: 'Propriétés' and 'Oublier'.

-Telecharger et installer EDUROAM

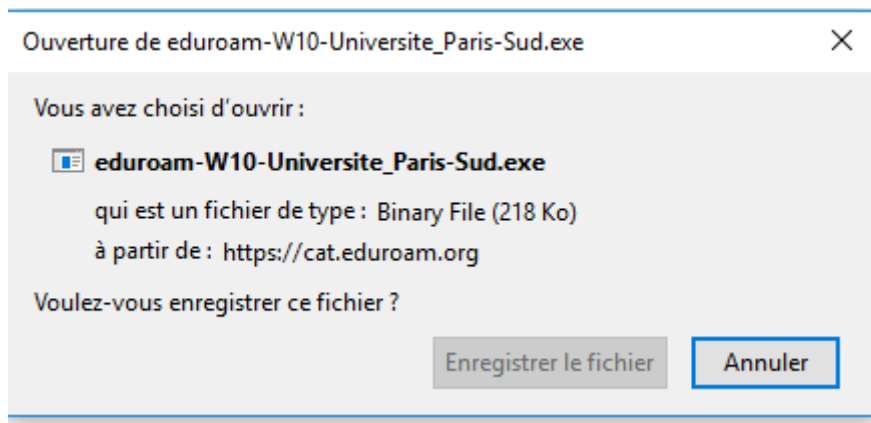

-se connecter à <https://cat.eduroam.org/> et rechercher Université Paris-Sud

-Telecharger et executer l'installer : (exemple pour Windows 10)

[All platforms](#)

-entrer vos identifiant ADONIS et mot de passe et connecté vous a EDUROAM.
